

DESIGN ENGINEER - INTERMEDIATE LEVEL

Condeland Engineering Ltd. is seeking a Civil Engineering Designer to be a part of our growing team. We have a wide variety and growing number of projects that we are excited to be a part of, including channelization, site development, subdivisions and municipal works. Condeland Engineering offers a comfortable work environment with emphasis on career development and advancement.

Role Overview

The Intermediate Level Designer is responsible for assisting in technical design, business development, pursuing new projects, and enhancing the capabilities of the Civil team. This position will work under the supervision of the Senior Designer and the Project Manager.

What We Need

- Civil Engineering Degree and *minimum* relevant 3 to 5 years' experience.
- Previous experience working in a consulting civil engineering environment in the land development industry.
- Knowledge and use of HECRAS Hydraulic modelling and Visual HYMO Hydrologic modelling.
- AutoCAD experience, including Civil 3D an asset.
- Excellent communication skills.
- Self-motivated / team player.
- Ability to work in a multi-disciplinary team committing to delivery of exceptional product in agreed upon timelines.
- Eager to learn and take on new challenges, with a strong disciplined work ethic and desire to succeed.

What You Will Do

- Assist with Technical design and management of documents and drawings for site, land, and municipal development projects.
- Grading, servicing, plan / profile design, and waste water engineering.
- Assist in preparation of design reports and construction documents.
- Coordinate and communicate with design team, and approval authorities.
- Assist in negotiation of permits.
- Other relevant duties as assigned.

Minimum Requirements

- C.E.T. or preferred Professional Engineer (eligible for licence) specializing in subdivision design with a minimum of five (5) years relevant experience.
- Knowledgeable in the design of roads, storm and sanitary sewer systems, water distribution systems, storm water management ponds and techniques, lot grading design, and earthworks
- Workable AutoCAD skills
- Self motivated, deadline driven, proactive, team player

What Do We Offer?

- Competitive salary commensurate with experience
- Private Health and Dental Insurance *
- 1.5% Health Spending Account *
- Paid Sick Days **

* Following a successful three month probationary period. Non-Negotiable.

**Sick Days - Certain number of days and may not be carried forward to other calendar years.
